Report

Revit Architecture Fundamental - BIM CoE

The Department of Civil Engineering, Capital University of Science & Technology (CUST), Islamabad has successfully conducted a two day training workshop on *REVIT Architecture Fundamentals* on 25th and 26th October, 2019 at its BIM Center of Excellence (BIM CoE).

This training was specifically arranged for individuals who are either involved in research projects related to BIM or who want to pursue a carrier in BIM construction modeling. Sixteen (16) participants with academic as well as industrial background participated in this training. Dr. Shujaa Safdar, Asst. Professor, Civil Engineering Department was the resource person / trainer. During the two days, the participants were briefed about the fundamentals of BIM and received hands on training of Revit Architecture on a multi-story building model. At the end of training, the participants were presented with the certificates.
