

Capital University of Science & Technology Islamabad

Workshop on Latex (Online)

Latex is a Typesetting System suitable for producing scientific and mathematical documents which enable authors to typeset and print their work at the highest typographical quality. It is most often used for medium-to-large technical or scientific documents but it can be used for almost any form of publishing. Participants of this workshop will be able to install, operate and further take up design and development activities on the Latex independently, in their respective environments.

Subject Matter:

- ✚ Latex Overview and Installation
- ✚ Writing a document
- ✚ Packages
- ✚ Math Operations
- ✚ Inserting Figures
- ✚ Inserting Tables
- ✚ Generating Table of Contents
- ✚ Bibliography

Requirement:

- Laptop/PC
- Miktex 2.9 (updated version)
- Textstudio (updated version)

Wednesday, 16th Dec 2020
