

Capital University of Science & Technology Islamabad

Workshop on Endnote (Online)

EndNote is a Multiplatform Software Tool that helps you manage the process of writing and preparing Research Papers and Thesis, and transfer & store references from electronic databases and library catalogues. It manages PDF and other research files, automatically compiling key information from your files for easy citation building. It can easily be used to change styles, format a bibliography view and sync your library and work across devices. Through EndNote website you can also connect with your University library system to search for millions of research and journal articles.

Who Should Participate?

- Researchers who manage large number of references for a Literature Review or Thesis
- Researchers writing Journal Articles needing to submit a manuscript conforming to specific Journal or Publisher Style
- Faculty Members and General Audiences
- Students managing References for a major Assignment

Requirement:

- Laptop/PC
- Endnote 8.2 (Available at CUST Online Software Bank on FTP Server)

Resource Person:

Dr. Syed Shuja Safdar Gardezi
Asst. Professor CE Dept, CUST
PhD (Construction and Project Management)
University Teknologi PETRONAS (UTP) Malaysia

Tuesday, 26th January 2021
02 PM - 04 PM
