READING COMPREHENSION, VOCABULARY

READING COMPREHENSION

*This part contains a reading passage followed by questions based on what is **stated** or **implied** in the passage. While answering the questions, take cognizance of the facts or implications in the text. You may refer back to the passage while answering. Mark your answers on the answer sheet.*

It is said that light is shadow of God. Once Diogenes took a lamp in his hand in day time and looked about in the streets full of people and said, "I am in search of an honest man".

Light spreads education and knowledge. In all developed societies education occupies central place. Today we see tremendous explosion of knowledge all around. Nations with strong educational profiles are leaping forward and making viable economic growth and development. These nations have restored educational system its rightful place. They have enabled their citizens to live cope with and grow towards

high change in society. Their educational apparatus has helped usher in a knowledge based society.

They have built their citizenry with a forward looking vision. Education sets to provide valuable policy input to chalk out better future. Education exploits and utilizes innate capacities of people. It develops strategic skills of the people. Indeed, education plays a role of the most powerful catalyst to spur the individuals. And who can deny Socrates saying, "No man is knowingly evil". So, knowledge becomes virtue and knowledge becomes power and power never fails. All education springs from images of future and all education creates the image of future.
