### **Kickoff Interactive Seminar on Cloud Computing Services at CUST arranged by ORIC-CUST in collaboration with Huawei**

Kickoff Interactive Seminar on Cloud Computing Services at CUST held on **Thursday, 13<sup>th</sup> May, 2024 at 11:00 AM to 01:00 PM in A1 Auditorium**. The session covered Introduction of Huawei and Huawei Cloud Community (HCC), Objectives and Vision of HCC, Roles, Responsibilities & Recruitment of the Team, Benefits for students and faculty members, Huawei's Cloud Services offered by Huawei, Pakistan and Overview on Huawei's cloud products, and learning material and guides. Guest Speakers included:

- (1) **Mr. Li Wenbo, Director Eco System, Huawei Cloud Pakistan** is Web 3.0 enthusiastic with expertise in Gaming & E-Commerce Eco-system Empowerment.
- (2) **Mr. Farhan Ali, Director Solutions, Huawei Cloud Pakistan**. Looking after Public and Private Cloud solutions with over a decade experience in technology infrastructure and enterprise solutions domain.
- (3) **Mr. Ashfaq Hussain, Director Eco-System at TechSol Space (Huawei's Partner) and Head of Huawei's Cloud Community in Pakistan**. He is also President of the Pakistan-U. S Alumni Network (PUAN).
- (4) **Mr. Sannan Ahmed, Solutions Architect, Huawei Cloud Pakistan**. AI, DevOps & Gaming enthusiastic with solutioning expertise.

A total of **48 Research Students** from Computer Science & Software Engineering department attended the session. During their visit to our university, the Hawaiian Cloud Company representatives engaged in a range of activities, including:

- A detailed presentation on the company's history, products, and services
- Interactive workshops on cloud computing technologies and their practical applications
- One-on-one mentoring sessions with students interested in pursuing careers in the cloud computing industry
- A campus tour to showcase the university's own data center and IT infrastructure.

Some of their key unique offerings include **Climate-Resilient Infrastructure, Renewable Energy Integration, Localized Data Sovereignty** and **Specialized Support**. The company's support teams are uniquely trained to understand the operating conditions and requirements of businesses in tropical regions. This allows them to provide tailored, culturally-sensitive assistance to their clients.

The visit was widely attended by students, who were impressed by the company's innovative approach and commitment to serving the unique needs of businesses in the Asia-Pacific region. The Hawaiian Cloud Company's visit to our university was a valuable opportunity for our community to learn about the latest developments in the cloud computing industry. Their focus on climate-resilience, renewable energy, and localized data sovereignty sets them apart as a truly unique and forward-thinking technology provider. We look forward to further collaboration and engagement with the Hawaiian Cloud Company in the future.
